

Exploring the Current Landscape of Social Work Supervision in Australia: Practices, Models and Challenges

Key dates	July 2025 to December 2025
Participants sought	<ol style="list-style-type: none"> 1. Social work supervisors who are members of AASW or meet the eligibility criteria for AASW membership 2. Social work supervisees who are members of AASW or meet the eligibility criteria for AASW membership 3. Qualified social work supervisors and supervisees employed by other organisations even if they are not registered with AASW
About	As part of my Doctor of Social Work (DSW) studies, I am conducting a research study that explores the landscape of social work supervision in Australia. The study aims to understand current supervision practices, models, and challenges within the Australian context. Specifically, it explores how the experiences and qualifications of both supervisors and supervisees influence supervision approaches and perceptions of quality.
What is involved	Participate in a 20 -30-minute online survey as a social work supervisor or supervisee using one of the links or QR Codes below.
How to get involved	<p>Please use the following link or QR Code if you are Social Work Supervisee https://redcap.latrobe.edu.au/redcap/surveys/?s=KLMA7JJDKDWL9KDC</p>  <p>Please use the following link or QR Code if you are Social Work Supervisor https://redcap.latrobe.edu.au/redcap/surveys/?s=YHTP9JLHTNTEEPYR</p>
